## OPTION 1

[Option to insert YUVEZZI logo or product shot, as desired]

YUVEZZI™ Eye Drops Now Available at [Practice Name]

[Practice name] is proud to be prescribing YUVEZZI™ (carbachol and brimonidine tartrate ophthalmic solution) 2.75%/0.1% eye drops, the first and only dual-agent (combination) eye drop for presbyopia, or blurry close-up vision due to age.

This new, once daily, non-invasive option is an example of how [Practice name] is committed to providing innovative options for vision care that meet our patients' needs.

To learn more, contact us or visit [www.YUVEZZI.com](http://www.YUVEZZI.com).

---

## USE

YUVEZZI (carbachol and brimonidine tartrate ophthalmic solution) 2.75%/0.1% is a prescription eye drop for adults with blurry close-up vision due to age.

## IMPORTANT SAFETY INFORMATION

Do not use YUVEZZI if you are allergic to any of its ingredients or if you currently have inflammation of the iris (iritis).

Before taking YUVEZZI, tell your doctor if you have depression, low blood pressure, or circulation problems.

YUVEZZI may cause temporary blurry, dim, or dark vision. If you experience this, avoid driving, using machinery, and participating in hazardous activities. Use caution when night driving and in other activities in low light.

Call your doctor right away if you suddenly have flashes of light, floaters, or vision loss.

Do not let the tip of the vial touch your eye, eyelid, or any other surface.

The most common side effects of YUVEZZI are headache, impaired vision, and eye pain and/or eye irritation upon use. These are not all of the possible side effects of YUVEZZI.

Most side effects were generally mild, didn't last long, and went away on their own.

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit [www.fda.gov/medwatch](http://www.fda.gov/medwatch), or call 1-800-FDA-1088.

Please see the [Brief Summary](#) for more information.
